EXPLORE. INNOVATE. COMMUNICATE. CREATE.

This fun-filled day is packed with exciting hands-on experiences in **science, technology, media, and robotics**, designed to **ignite curiosity and inspire future careers** in STEM and beyond!

FEATURED ACTIVITIES

Lights, Camera, STEM! Join a radio host (Fredericksburg Radio Personality) in our state-of-the-art podcast studio to explore how communication and media shape public understanding of science and technology.

NSWCDD Intern Panel: Meet high school graduates working as science interns at the Naval Surface Warfare Center Dahlgren Division. Learn about their projects and STEM career journeys. Have the interns interviewed by a radio host explaining their STEM journey.

Science Terrain Walk: Take a guided walk through our STEM landscape (Three Local Horticulturists). Explore how engineering, environment, and defense technologies intersect—outside the classroom.

Makerspace Robotics Challenge: Design, build, and test your robotic device in our high-tech Makerspace Lab. Team up and have fun with creative robotics.

Lunch & Learn: Sit down with engineers, scientists, and media professionals to discuss careers, college pathways, and the future of innovation.
